

# SUPERSAT®

## Direct Inject Surfactants

Our new line of Direct Inject Surfactants allows direct contact with super high alkaline solutions (up to 1800 drops). These new surfactants combine with SuperSat L.A. without the dilution tank!

- No L.A. dilution tank necessary
- Good for onboard detergent applications
- Quick, easy two-part convenience

**Presoak D.I. #1537**– This cherry-scented concentrated blend of cleaners and foamers is specifically designed for presoak applications. It contains aggressive surfactants which melt road film, bugs and window haze off the car and provides excellent film breaking action without using brushes.

*Recommended usage: 2-10 ml/car*

**Tire and Wheel D.I. #1536**– This piña colada scented detergent provides excellent hang time while it cleans stubborn oily soils on tires. It is safe on all wheels.

*Recommended usage: 5-13 ml/car*

**Bay Wash D.I. #1538**– This high pressure, high foaming detergent is a unique blend of surfactants, wetting agents and foamers to clean cars thoroughly with a terrific cherry scent.

*Recommended usage: 1-3 ml/vehicle*

**Foam Lube D.I. #1535**– This pink foam detergent delivers extra lubrication to brushes in touch automatic car washes to reduce friction noise. It delivers a pleasant grape fragrance.

*Recommended usage: 2-6 ml/car*
